

School has provided consistency + routine and I know Sophie has made lots of friends and hopefully some will continue to college with her. We thank you for your hardwork + care and for providing opportunities for Sophie such as the D&E award! Activities like this are so important for young people! Schools are under a lot of pressure with targets etc and numbers/measures but not everything that matters can be measured! We hope that our thanks and also seeing the development / positive effect of school on the children including the ~~legendary~~ Sophie is what counts!

With best wishes, Auntie
Kate
Auntie Em + all of the family x

17.06.23.

To, Sophie's current + previous Teachers + Teaching assistants (and anyone else that has played a part in her time at the school!).

We just wanted to say a big Thank you for supporting Sophie through her learning and growth (into a now, young lady!!) during her time at the school.

School provides such an essential role in helping to build confidence, life skills and of course enhance learning. This requires a safe + happy environment both of which I believe Sophie has always felt! (Well, maybe not that happy on an early Monday morning hehe). Sophie loves a lie in!

(Family of Sophie Austin)
