

Want to be an athlete?

Do you have a friend or family member with special needs?

Want to try Adaptive Athletics

Come and see us in Yate

We provide special adapted sessions in athletics, for school age young people from 8 years to 15 years. We welcome those with a wide range of special needs. To support the group we have a range of new equipment for fitness and a selection of racing wheelchairs, frame runners and seated throws equipment. Our coaches are UKA licensed with a broad range of experience in the area of special needs.

We welcome those who are just beginning their journey, looking for fun and personal progress .. right up to those those with aspirations for International Paralympic success. If you or members of your family, have these aims, come and talk to us.

The sessions are currently funded by Wesport, Sport England and Deaf Studies Trust

For more information, if you want to take part, or help us out, or even sponsor us
